

Hyosung is revolutionizing the ATM self-service industry. The **MX7800I** enables customers to choose how they want to interact with your financial institution by offering a robust set of transactions through Hyosung's industry-leading core integration solutions either autonomously or with on-demand video assistance greatly improving the limited traditional ATM experience. The **7800 series** modular design and high capacity drive Hyosung's industry-leading availability and serviceability. Learn why large and small financial institutions continue to standardize on **7800 series**, helping make Hyosung the fastest-growing ATM company in the United States.

## KEY FEATURES

---

### INNOVATION

The **MX7800I** has the ability to deliver transactions through self-service or with the support of on demand video assistance. Our financial institutions' customers prefer self-service first and only video when required approach and do not require a video agent upfront.

### HIGHEST AVAILABILITY

Innovative modular design and the use of Hyosung's manufactured core technologies allow for fast, easy replenishment and reduced downtime. The **MX7800I** is designed to provide reliability that is unequalled in the market, with minimum maintenance and maximum uptime.

### USABILITY

A user interface specifically adapted to accommodate a wide range of drive-thru teller transactions. Multiple customer authentication options include contactless and biometrics.

### CAPACITY

High capacity, cash dispense capability and the ability to support large volume transactions.

### FUNCTIONALITY

The **MX7800I** delivers an unparalleled range of transactions when deployed in conjunction with Hyosung's innovative integrated software approach and powerful video assistance solutions. The **7800 series** comes ready to support a full range of branch transformation transactions, including video.
